

ATTENTION:

TasteSpace.com is a multi-faceted Search Engine and centralized Index of New York bars and restaurants. Increase online exposure by creating your **customizable TasteSpace Venue Profile!**

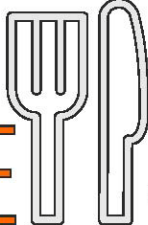

TasteSpace is a great way to promote your bar or restaurant to a receptive audience. We have thousands of users eager to learn more about your establishment's offerings. All you have to do is signup at www.tastespace.com/owner. Once we confirm your registration, you'll be able to:

- Add menu(s) to your profile
- Upload photos of your venue
- Write a business description
- List specials and events
- Include details and highlights
- Post exclusive promotional deals and discounts

The more information you list on your Venue Profile, the more likely it will appear in user Search Results. Users can browse our venue database to find specific drinks or dishes (Tastrix Menu Search), or nearby drink and dinner specials (Scoop du Jour Specials Search), or venues suitable for a particular type of person (Take Me Out survey). Users can also search for venues by name, price range, cuisine, ambiance, feature, address and more!

Once you've logged into your Manager Account, you can create a signature "web alias" for your Venue Profile: www.tastespace.com/RestaurantName. And best of all, all the content you list on your Venue Profile will be automatically Search Engine Optimized, meaning that your TasteSpace Venue Profile is more likely to appear in relevant searches on Google, Yahoo!, etc.

Your venue may
be listed on the site.
